// Snijeg pade na behar, na voće //
// Neka ljubi ko god koga hoće //

// Ako nece, nek' se ne nameće //
// Od nameta nema selameta //

// Da si sretan k'o što si nesretan //
// Pa da dođeš meni u odaje //

// Da mi sjediš među šiltetima //
// Baš k'o paša među bimbašama //

// Da ti ljubim tvoja medna usta //
// Tvoja usta moja želja pusta //

Snow is falling on blossoms and fruits
May everyone fall in love with whoever they please

If another won't, don't push it
It's no use, you won't gain the one you choose

If you had as much luck as you had misfortune
You could have come to my room

And lounge on my divan covered with cushions
Like a pasha surrounded by a thousand soldiers

And I would kiss your sweet lips
But that's all wishful thinking
